

Safari In A Box Donation

Our chapter started what hopes to be a long lasting relationship with the Sutter County Schools system this month with our first donation of a Safari In A Box Kit. Jasper Warren and Larry Johns presented the kit to Mr. George Stratman, Director of the Woodleaf Outdoor School program located in the Yuba Foothills. This program has been instrumental in teaching our local area youth for many years the importance of wildlife conservation and outdoor education. "This Safari In A Box program will be a great addition to our teaching tools" stated Mr. Stratman "This is a tool that we have been missing, Our youth more than ever need to understand the importance of hunting, and how it fits in the big picture of wildlife conservation ,And what better teaching tool than Safari In A Box to help us with this issue".

Mr Stratman has also been selected to represent the Suter County School System in attending a June Session of the American Wilderness Leadership ISchool

School in Jackson Hole Wyoming. Sponsored by The Sutter Buttes Chapter and the National Sables division of Safari Club International , We felt that their was no better individual than Mr. Stratman to start our sponsorship program with. George has also volunteered to work with our chapter upon his return in developing our education and sponsorship programs. And help with future selections of AWLS attendees.
